CNT, Inc. began as a small numismatic business in 1973. Since that time we have grown into the largest privately owned company in the precious metals industry. With a staff of over 50 people, including the entire Oliari family, and annual net revenue of \$8 Billion in 2011, CNT is built to span generations.

As a pillar of the industry, it is the goal of CNT to provide exemplary service. When our clients requested a location to store metal that would provide that same level of service we sought to fulfill the need. The result: CNT Depository, Inc.

CNT is committed to our family, our staff, and to the precious metals industry. Underlying this commitment are CNT's core values: honesty, integrity, responsibility. CNT is invested in establishing and maintaining the highest levels of professionalism in the storage arena and the overall marketplace.
