WHAT ARE SOME OF THE ADVANTAGES OF STORING WITH CNT DEPOSITORY?

1. Unlike safety deposit boxes (and unlike many other depositories), all precious metals stored at CNT Depository are **100% insured** against all physical loss, damage, theft, or other liability. Our insurance provider is Lloyd's of London.
2. Since we are a privately owned facility, we are not subject to the same limitations imposed upon banking institutions by the US Government.
3. CNT Depository does not contract out any of our storage **or security**. We store all of your assets in our own highly secured facility. These assets are **fully segregated**, allocated, and remain constantly under our direct protection. Security (both internal and external) is our highest priority.
4. CNT Depository is a COMEX-approved silver, platinum, and palladium depository. Only 6 facilities worldwide have obtained these COMEX certifications, and these facilities must meet or exceed Exchange imposed criteria for security, processing, and financial standards.
5. CNT Depository prides itself on the service we provide to our customers. We take great care of our clients. We provide accurate, efficient, safe procedures to allow you to focus on your life while we focus on the security of your assets.

HOW DO I KNOW MY ASSETS ARE SAFE AGAINST UNEXPECTED LOSS?

Our facility and the assets it holds are 100% insured against all physical loss, theft, damage, or other liability by Lloyds of London. We do not outsource any of our storage. Therefore, we are able to certify at all times that you are receiving the highest quality protection.

ARE MY ASSETS CO-MINGLED WITH THE HOLDINGS OF OTHER CLIENTS?

No. CNT Depository offers only **segregated and allocated** storage. From the moment your precious metals enter our facility, you can be certain your holdings remain segregated at all times.
